

MAX. ENGINE POWER: 4.4kW (5.9hp) MAX. CARRYING CAPACITY: 500kg (1102lb) MAX. SPEED: 4kph (2.5mph)

STATIC DIMENSIONS

Machine model	HTD5
	mm (ft-in)
A Machine length (operating position)	1700 (5-6)
B Undercarriage length	850 (2-9)
C Maximum height (tipping position)	2720 (9-0)
D Skip ground clearance (tipping position)	1450 (4-9)
E Skip height (transport position)	800 (2-7)
F Overall height (transport position)	1100 (3-7)
G Track width	180 (0-7)
H Inside track width	330 (1-0)
I Maximum machine width	690 (2-3)

WEIGHTS & CAPACITIES

Machine weight	kg (lb)	475 (1047)
Max. carrying capacity	kg (lb)	500 (1102)
Max. operating weight (with load)	kg (lb)	975 (2150)
Fuel tank capacity	litres (in ³)	4.3 (262)
Hydraulic tank capacity	litres (in ³)	14 (854)

ENGINE (DIESEL)

Max. power	kW (hp)	4.4 (5.9)
Max. rpm		3000
Number of cylinders		1
Displacement	cm ³ (in ³)	349 (2.1)

HYDRAULICS

Pump number		3
Pump output	l/min (gal/min)	27 (6)
Operating pressure	bar	150

TRANSMISSION

Type – 2 speed hydrostatic

UNDERCARRIAGE

Number of bottom rollers		2
Track tensioning		Manual
Speed range	kph (mph)	0 – 4 (0 – 2.5)

STANDARD & OPTIONAL EQUIPMENT

0.3m ³ (0.4yd ³) skip		Std
2 speed tracking		Std
Manual pull start		Std
Electric start		Opt

DUMPSTER | HTD5

Tight spaces and heavy loads

Trust JCB to carry it off

Maximum machine width of just 690mm fits through a standard doorway

1450mm tip height tips directly into a skip or high-sided vehicle

High carrying capacity of 500kg lets you do more in less time

Genuine JCB design and build guarantees quality and reliability

Pull-out engine cover gives easy access for daily checks, servicing and maintenance

The new HTD5 is a compact, walk-behind, high-tip Dumpster designed by JCB to save you time, energy and money: in independent tests Dumpsters were found to be over 20 times more effective than using the old-fashioned alternative, the wheelbarrow.

Where the HTD5 Dumpster really comes into its own is when paired with a JCB Micro excavator. Its compact dimensions, with a maximum width of just 690mm, allow it to follow the Micro through a standard doorway (typically 750mm wide) to access restricted sites like back gardens. Once in position the HTD5 Dumpster can be loaded directly by the excavator to remove spoil from the site.

Not only is this machine incredibly easy to use, even for novices, but 2-speed tracking also gives you a lower speed for added precision and control when going through tight spaces, and a faster speed for travelling across site, while a track lock as standard stops the machine creeping when parked on a hill. The engine cover helps to reduce noise levels for more comfortable operation and Cesar datatag, also as standard, increases security.

When it comes to unloading, the skip is operated hydraulically from below and is able to discharge from an exceptional tip height of 1450mm directly into a skip or a high-sided vehicle. Even more surprising for such a small machine is its large load capacity of 500kg.

Add an 850mm undercarriage for increased longitudinal stability, a 5.9hp diesel engine for economy and convenience on site, plus a choice of manual or electric start, and you have an indispensable partner for making light work of all sorts of carrying and unloading tasks.

When a product is designed and built by JCB, that's your guarantee of a robust, intelligently made machine that will give you the productive performance you need, backed up by the now legendary support and customer service of our global network. The HTD5 Dumpster comes with all of this and more.

Not only does this machine quietly get the job done... no fuss, just hard work. But you can also take it wherever you need it on a trailer or in the back of a transit van, and carrying out maintenance and daily checks is simplicity itself thanks to a pull-out engine cover.

From local authorities and tool and plant hire businesses, to building and landscaping contractors, you'll find the HTD5 Dumpster indispensable when it comes to accessing restricted sites and smaller projects, such as drives, footings, patios, conservatories and paths.
